GUARD

The art of security & style, in one innovative product.

 SECURITY

 10 YEAR WARRANTY

 RUST PROOF

 OUTDOOR

 INDOOR

 CUSTOM COLOURS

ShutterGuard® Aluminium Security Shutters are a savvy, stylish, safety solution for windows or doors – offering security without compromising the aesthetics of your home, commercial or retail space.

The patented Gear-lock keeps the shutters in place. A 6cm patented bolt secures the shutters to the floor, leaving no leverage to lift the lock out of the track. A 3.4cm bolt secures the top track when locked. The Cisa system allows you to lock the shutters with a unique security key. Should you wish to have a double-sided lock please request this with us.

TECHNICAL SPECIFICATIONS

UV Blockage:	100% when closed
Weight:	14 kg/m2
Min/Max Width:	250 - 850mm
Min/Max Height:	650 - 2900mm

CUSTOM COLOURS

TRACK OPTIONS

LIP C
track which has a 'lip' coming up and over and lies against the top frame opening, to neaten it off.

NO LIP C
The top track fits in flush with the opening and doesn't come up and over the top wall opening.

Top track with lip
(To neaten uneven walls, window frames, gaps etc.)

Top track without lip

Bottom track / raised

Bottom track / recessed

Face fixed with top track

Reveal fixed with top track
(inside the window/door reveal)

CONFIGURATIONS

Bi fold

Cottage

Cottage arch
(please note no bottom frame)

Bi pass

Slider

Floating
(When stacked shutters can move left or right)

PIVOT OPTIONS

PIVOT
either the extreme left or extreme right shutter is fixed and does not move. The other shutters therefore pivot from this fixed point

Pivot, either left or right

HURRICANE shutters

Let the sunshine in.

Hurricane Aluminium Shutters were originally designed to protect windows and doors from storms and high winds without compromising the aesthetics of a home.

These stylish shutters, made entirely from aluminium, are not only good to look at but are functional, durable, won't rust, are easy to clean and therefore come with a 10 year warranty. As with ShutterGuard®, the folding, louvred shutters will open up a room as well as control light, noise and temperature.

☀️ CONTROL LIGHT, NOISE & TEMPERATURE

Thermowood® Shutters are practical and elegant, custom-made, louvre door shutters, manufactured from a durable, specially engineered wood substitute – extruded PVC – that has been thoroughly tested under stringent humid, hot and dry conditions to ensure longevity.

Whether you want to invite light and a sense of space into your home at the ocean's edge or in the middle of the Karoo, or whether you are looking for a room divider or alternative cupboard door in a room influenced by moisture, Thermowood® Shutters will deliver on its' promise of merging indoor and outdoor living – elegantly.
